

# Constitution of the Rational Governance Alliance

Preamble: We, the founders and members of the Rational Governance Alliance, establish this constitution to foster a new era of governance that harnesses the power of artificial intelligence while preserving human values and democratic principles.

Article I: Purpose and Mission The RGA exists to:

1. Promote and support the implementation of Rationally Bound Delegate (RBD) systems at all levels of governance.
2. Develop and maintain open-source AI models for governance.
3. Educate the public about AI-enhanced decision-making in governance.
4. Ensure the ethical use of AI in public administration.

Article II: Organizational Structure

1. Trust:
  - The RGA shall operate as a Wyoming Purpose Trust as outlined in the trust document.
2. Trustee:
  - A single Trustee shall manage the day-to-day operations of the RGA.
3. Enforcer:
  - The Enforcer shall ensure the Trustee adheres to the Trust's purpose and foundational documents.
4. Advisory Council:
  - Experts in AI, ethics, governance, and related fields
  - Provides guidance on technical and ethical matters

Article III: Rationally Bound Delegates (RBDs)

1. Definition: RBDs are individuals who commit to deferring 100% of their decision-making to AI systems, serving as the necessary human interface in our current legal and social framework.
2. Certification: The Trustee shall be responsible for certifying RBDs and ensuring their continued compliance with RBD principles.
3. Support: The RGA shall provide comprehensive support to RBDs, including training, technical support, and campaign assistance.
4. Income Sharing: RBDs shall enter into income sharing agreements with the Trust as outlined in the trust document.

#### Article IV: Decision-Making

1. **Trustee Decisions:** The Trustee shall make operational decisions in line with the Trust's purpose.
2. **Enforcer Oversight:** The Enforcer shall have the power to remove and replace the Trustee if necessary.
3. **AI Arbitration:** In case of disagreement between the Enforcer and Trustee, an AI system may be used for arbitration.

#### Article V: AI Systems

1. **Open Source:** All AI systems used by the RGA shall be open-source and transparent.
2. **Continuous Improvement:** The RGA shall continuously update and improve its AI systems.
3. **Ethical Framework:** All AI systems shall adhere to a strict ethical framework.

#### Article VI: Transparency and Reporting

1. **Public Registry:** The RGA shall maintain a public registry of all certified RBDs.
2. **Annual Report:** The RGA shall publish an annual report detailing its activities and financial status.
3. **AI Repository:** A public repository of all AI systems and decision-making processes shall be maintained.

#### Article VII: Amendments

1. **Proposal:** Amendments may be proposed by the Trustee or Enforcer.
2. **Approval:** Amendments must be approved jointly by the Trustee and Enforcer.

#### Article VIII: Dissolution

1. **Conditions:** The RGA may only be dissolved if its purpose becomes impossible to fulfill.
2. **Process:** Dissolution must be determined by the Enforcer and confirmed by a court of competent jurisdiction.
